

Dashboard Indicators					
S.No.	Indicator	Definition	Numerator	Denominator	Data Source
Process indicators					
1	Proportion of pregnant women whose blood pressure was recorded at the time of admission	This reflects the practice of recording BP of pregnant women by the service provider at the time of admission (targeted to identify cases of pregnancy induced hypertension)	Number of pregnant women admitted in the targeted facilities whose BP was recorded at the time of admission during specified period	Total number of pregnant women admitted in the targeted facilities for delivery during same period	Case sheets/ Labor room register
2	Proportion of pregnant women where FHR was recorded at the time of admission	This reflects the practice of recording FHR by the service provider at the time of admission of pregnant women to the facility (targeted to monitor the fetal wellbeing)	Number of pregnant women admitted in the targeted facilities where FHR was measured at the time of admission during specified period	Total number of pregnant women admitted in the targeted facilities for delivery during same period	Case sheets/ Labor room register
3	Proportion of mothers who were administered Uterotonics (Oxytocin/Misoprostol) immediately after delivery for active management of third stage of labor (AMTSL)	This reflects on the practice of oxytocin administration as a part of AMTSL	Number of deliveries where administered to women within 5 minutes of delivery	Total number of deliveries in the same period	Case sheets/ Labor room register
4	Proportion of mothers whose body temperature was recorded at the time of discharge	This reflects on the practice of recording temperature of mothers by the service provider at the time of discharge (targeted to identify cases of maternal sepsis)	Number of pregnant women admitted in the targeted facilities whose body temperature was recorded at the time of discharge	Total number of pregnant women discharged in the targeted facilities after delivery	Case sheets/ Labor room register

Dashboard Indicators					
S.No.	Indicator	Definition	Numerator	Denominator	Data Source
5	Proportion of deliveries where newborn temperature was recorded before discharge	This reflects on the practice of recording newborn temperature by the service provider at the time of (targeted to identify cases of neonatal sepsis)	Number of deliveries where newborn temperature was recorded before discharge	Total number of deliveries in the targeted facilities (excluding deliveries resulting in IUD or still birth)	Case sheets/ Labor room register
6	Proportion of Deliveries for which Partograph were used to monitor progress of labor	This reflects the use of Partograph to monitor progress of labor	Number of deliveries for which Partograph was used	Total number of deliver (excluding elective caesarean sections)	Case sheets/ Labor room register
7	Proportion of preterm births (<34 wks) where antenatal corticosteroids were administered	This reflects the practice of identification and administration of ANCS for PTB at facility	Number of preterm deliveries where antenatal corticosteroids was administered	Total number of preterm deliveries at facility	Case sheets/ Labor room register
Outcome Indicators					
1	Proportion of deliveries with severe complications in the targeted facilities (segregated by type of complication: PPH or severe PE/E or prolonged labor or obstructed labor	Reflects the occurrence of severe complications such as PPH/ severe PE/E/ prolonged labor/ obstructed labor	Number of complications (like PPH/severe PE/E/ prolonged labor/obstructed labor) occurring at facility during a specified period	Total number of deliveries in the same period	Labor room register
2	Proportion of live births with neonatal asphyxia	Reflects the occurrence of neonatal asphyxia among all live births at facility	Number of new born with neonatal asphyxia	Total number of live births at facility	Labor room register
3	Still birth rate at facility	Reflects the still birth rate at facility	Number of still births at facility	Total number of live births at facility	Labor room register
